

Australian Dental Fee Ranges — Quick Reference

Indicative **private-practice** fees in AUD, no health-fund rebate applied. For OSCE informed-financial-consent, treatment-planning and referral stations. Fees are set independently by each practice — quote a *range* and always offer a written estimate.

DIAGNOSTIC & PREVENTIVE

ITEM	PROCEDURE	TYPICAL FEE
011	Comprehensive oral examination	\$60 – \$110
012	Periodic oral examination	\$55 – \$95

—	Occlusal splint	\$500 – \$1,000
—	Custom mouthguard	\$180 – \$400

Informed financial consent — say this in the station. "Before we start I'll give you a written treatment plan with the item numbers and the fee for each step, so there are no surprises. You can take that to your health fund for a pre-treatment estimate." Cover: total cost, staged costs, laboratory fees, what happens if the plan changes, and that a *specialist* fee is separate from yours.

Public & subsidised pathways. **CDBS** — \$1,158 per eligible child over 2 consecutive calendar years (2026 cap). **DVA** — Gold/White card holders, own fee schedule, pre-approval for major items. **State public dental** — concession-card holders; emergency care prioritised, waiting lists for general care. **Health funds** — extras cover only; annual limits and waiting periods apply. Medicare does *not* cover general dentistry.

Disclaimer: Figures are indicative ranges compiled July 2026 from published Australian practice price guides and health-fund data, for *educational use in ADC OSCE preparation only*. Fees vary by up to 40% between regional and metropolitan practices and between states. Item numbers follow the ADA *Schedule of Dental Services and Glossary*; verify current numbers before clinical use. Not financial or clinical advice. · © OSCE Coach.
